

TERMS AND CONDITIONS OF PARTICIPATION

General Terms and Conditions for Participation in SCC EVENTS Sporting Events

PREAMBLE

These Terms and Conditions of Participation apply to participation in all sporting events organised and run by SCC EVENTS GmbH, Olympiapark Berlin, Hanns-Braun-Straße/Adlerplatz, 14053 Berlin (hereinafter: **"SCC EVENTS GmbH"**, **"we"** or **"us"**).

SCC EVENTS GmbH has been commissioned by Sport-Club Charlottenburg e.V., Waldschulallee 34, 14055 Berlin (AG Charlottenburg VReg. No. 366Nz), the organiser of the sporting events, to organise and run the sporting events. We are authorised and commissioned to run the sporting events and to enter into contracts with participants in our own name. All communications from participants must be addressed to us.

§ 1 Scope of Application

The Terms and Conditions of Participation, in the version valid at the time of registration, form an integral part of the contract between SCC EVENTS GmbH and the persons registering themselves and/or third parties as participants. They apply to all participants in the version current on the day of the event. The current Terms and Conditions of Participation will be displayed on the day of the event and are available at <https://www.scc-events.com/teilnahmebedingungen>.

§ 2 Eligibility criteria, entry, association rules, sports equipment, timekeeping

2.1 Personal requirements; PAPS test

Anyone who has reached the minimum age specified in the relevant event announcement, has successfully registered in accordance with the applicable regulations [<https://login.scc-events.com/s/terms-conditions>] and is not subject to any ban on participation is eligible to take part.

Participants must compete in person and be capable of completing the course under their own efforts. By registering, participants confirm that they meet the health requirements for participation, are capable of completing the course within the maximum time specified, and, if in doubt, have sought medical advice. On the day of the event, participants will only participate if they are in good health and sufficiently fit and must withdraw from the race immediately at the first sign of weakness and/or feeling unwell.

We strongly recommend that participants take the PAPS test (= Personal, Activity and Prevention Screening Test) offered by us prior to the event. The free test is available at <https://www.paps-test.de/>.

2.2 Chronic Illness

Participation is not permitted if a participant has a known chronic condition that requires special care, including medical care, during the sporting event. We do not offer any special care in this regard. Care provided to participants by doctors and medical staff is only permitted following prior accreditation by us.

2.3 Costs of medical treatment, insurance

Medical services provided along the route, where applicable, are not to be paid for by participants. Any necessary transport to hospital and any subsequent treatment there are to be borne by the participant themselves. It is the responsibility of participants to ensure they are adequately insured and, where necessary, to take out separate (overseas or sports) insurance.

2.4 Federation rules

Where this is specified at the time of registration, our sporting events are conducted in accordance with the applicable national and/or international competition rules and under the supervision of the relevant governing body. Further information and an overview of the relevant competition and governing body rules are available at <https://www.scc-events.com/agb/verbandsregeln>

2.5 Sports Equipment and Aids

Unless explicitly stated otherwise, neither sports equipment nor any other aids are permitted at our sporting events. Exceptions apply only to the sports equipment and aids explicitly listed for individual sporting events.

2.6 Organisational matters, instructions

Information on the organisation and any last-minute changes can be found on the relevant website for each sporting event. We recommend that participants check this regularly, and certainly on the day of the event. Instructions from our staff, the clearly identified marshals and the medical service must be followed at all times.

2.7 Timekeeping, starting blocks

At sporting events where timing is carried out, timing is conducted using timing transponders specified by us and – when necessary – provided by us. Further information on the timing transponders used will be provided upon registration for the relevant sporting event and on the corresponding website. Participation in our timed sporting events without a timing transponder, or with one not approved by us, is not permitted.

We reserve the right to set up starting blocks and to have participants start in waves. When allocating participants to the various starting blocks, we will take into account the personal best or training time provided at the time of registration. However, we are not bound by this. There is no entitlement to be allocated to a specific starting block.

2.8. Prize money

Unless agreed in writing in individual cases, we do not pay out prize money to participants.

§ 3 Supplementary regulations for participation in SCC training runs

3.1 Eligibility

All participants who meet the requirements set out in the relevant event description, who have successfully registered by providing accurate details, and who have received confirmation of their participation from us are eligible to participate.

3.2 Accompanying children

Provided this is expressly stated at the time of registration, participants may be accompanied by their children on bikes or take them along in a pushchair. In such cases, it must be ensured that the participants and their children are still able to complete the route within the time limits we have specified. This falls under the participants' responsibility.

When bringing children along, participants are solely responsible for ensuring that the bikes, pushchairs, etc. used are suitable for this purpose and are roadworthy.

3.3 Crossing the finish line together – instructions

Our aim is to get all participants to the finish line together, safe and sound. We want to start and finish our training runs together. To this end, we will adhere to the times communicated. To ensure everyone can enjoy the run together, we ask all participants to stay together, not to leave the route and to follow the coaches' instructions.

3.4 Running in public spaces, running after dark

The training runs do not take place on designated running routes, but in public spaces. We run through parks and on public roads, sometimes at night. We therefore ask all participants to stay behind the coaches, keep an eye on the route, watch out for other road users and pedestrians, be aware of uneven surfaces and obstacles, and to warn and support one another.

Participants are aware that night-time training runs in parks and on public roads are more prone to hazards than training runs during the day and/or on dedicated running tracks.

Participants will choose footwear and clothing appropriate to the weather conditions, which they will inspect in advance. We recommend that participants wear reflective clothing and ensure they have adequate lighting (e.g. headlamps) for themselves and, where applicable, their children (bicycle lights, lights on the pushchair).

3.5 No medical care, insurance

We do not provide any medical services along the route. Participants are required to take out adequate insurance to cover any costs of medical treatment that may arise.

3.6 Changes to the event schedule

We cannot rule out the possibility of last-minute changes to the timetable or the route, for example due to road construction. We will inform registered participants immediately by email. We therefore recommend that all participants check their emails again before heading out.

3.7 Registration

To take part in a training run, participants must register with us via the relevant training run's website, unless otherwise specified in individual cases. To do so, they must provide the requested information in full and accurately.

3.8 Cancellation

In the event that participants are unable to attend the training run, we ask that they cancel promptly by email so that we can fill the place with a substitute.

§ 4 Public events, image and sound recordings

4.1 Public Events

Participants are aware that our sporting events are public events. They may be the subject of media coverage both online on the internet and/or social media, and offline on radio, TV and in print. Participants must therefore expect that they may be the subject of photographic and video coverage. The organiser will also document its events in image and sound (see [§ 3.2](#)).

4.2 Photographs, video recordings and interviews

Participants may be filmed, photographed and/or interviewed at the sporting events by us or by service providers commissioned by us. We are entitled to use the photographs, film footage and interviews produced (hereinafter: **'recordings'**) free of charge for documentation and editorial purposes. Participants grant us the exclusive right, unrestricted in terms of time, place and subject matter, to reproduce, distribute, publicly display and make the recordings available on demand. We may use the recordings both offline and online, as well as on social media, in particular—but not exclusively—in the following ways: magazines, newsletters, posters, photographic and video highlights of the event, highlight videos and press releases. In our reporting, we may also pursue promotional purposes, provided that the reporting aspect predominates. The recordings will also be shown on our own websites and social media profiles, as well as those of our event partners expressly named at the event, as retrospectives, impressions and/or highlight videos of our (past) events. The provisions of Sections 22 and 23 of the German Artistic Copyright Act (KUG) remain unaffected.

Participants hereby waive their right to be named.

§ 5 Breaches, exclusion, ban on participation

In the event of breaches of these Terms and Conditions of Participation and/or should you fail to comply with our instructions or those of our staff, the clearly identified marshals and the medical service, and/or should there be a risk that the proper conduct of the event or the safety and/or health of the participants is jeopardised, we, our marshals and/or the medical service may exclude participants from the timed classification or the sporting event and/or disqualify them.

Offences subject to sanctions include, amongst others:

- breaches of the relevant national and international association rules, and [Section 2.4](#) of these Terms and Conditions of Participation;
- the transfer of a personally allocated race number;
- the fraudulent acquisition, purchase and/or alteration of the race number;
- obscuring the advertising print on the race number;
- grossly unsportsmanlike behaviour;
- repeated, implausible split times;
- participation with an unauthorised timing transponder or without a timing transponder ([Section 2.7](#));

Furthermore, we reserve the right to impose a ban on participation (including for future events). We may impose a ban on participation, amongst other things, in the event of a continued breach of these Terms and Conditions of Participation despite a warning, in the event of outstanding payments, or to protect the participant from harm to their health. The person concerned will be informed of any ban on participation by us in writing.

§ 6 Registration, Start Pass, Race Number

6.1 Registration

In order to take part in a sporting event, participants must register with us via the event's website, unless otherwise specified in individual cases. Separate Terms and Conditions apply to registration and enrolment: <https://www.scc-events.com/agb>.

6.2 Distribution of race passes and race numbers

Participants must collect their race numbers in person. For certain sporting events, this may only be possible – subject to prior notice – upon presentation of a valid identity document and, where applicable, the respective start pass. We will send participants a start pass in a timely manner (usually 14 days before the sporting event), assigning a provisional race number. Participants are not entitled to have their race numbers sent to them.

§ 7 No-shows, Refund of Entry Fee, Withdrawal

7.1 No-show

If registrants or participants fail to meet their payment obligations despite a reminder setting a deadline (in writing), or if participants declare that they do not wish to honour the contract for participation in a sporting event (e.g. by means of a notice of termination or withdrawal), or if they cancel their participation in the sporting event or fail to take up their right to start – without cancelling – (no-show), we shall regard this declaration or this behaviour – irrespective of whether the registrants or participants are entitled to do so – as a definitive waiver of the right to start and of participation in the sporting event.

7.2. Refund of the entry fee

In the event of a no-show in accordance with § 6.1 of these Terms and Conditions of Participation, or if participants – for whatever reason – declare that they will not take part, there shall be no entitlement to a refund or reimbursement of the entry fee. The same applies in the event of the exclusion or disqualification of participants in accordance with [§ 5](#).

7.3 Withdrawal

Where registrants are entitled to a statutory right of withdrawal, they will be refunded the amount paid for registration to participate in the sporting event.

§ 8 Change of discipline

In the event that participants wish to change disciplines within the same sporting event booked directly with us (e.g. rebooking to longer or shorter distances), we will accommodate this request provided that capacity allows and the change can be made with reasonable effort on our part. In this case, the difference between the original entry fee and the entry fee applicable at the time of the rebooking must be paid; if rebooking to a cheaper category, we will refund the difference between the original entry fee and the new one. Irrespective of this, we charge a flat-rate rebooking fee of EUR 5 for each rebooking.

Participants who have registered with a third-party provider must contact their contractual partner directly to change disciplines.

§ 9 Changes to the event programme

9.1 Changes to content and timing

We are entitled, and where necessary even obliged, to reschedule the event in terms of time and/or venue, to shorten it, to cancel it in whole or in part, either permanently or temporarily, to close it partially, or to cancel it altogether in justified exceptional circumstances. A justified exceptional circumstance that warrants such a measure exists where there are sufficient factual grounds to suggest that holding or continuing the event as planned could lead to a specific risk to life and limb or to property of considerable value. We will notify participants of such changes in advance by email – where possible – and provide information on the website for the relevant sporting event.

9.2 Obligations to provide evidence

If we are required to do so, or if we consider it necessary for the safe conduct of the event, we may make participation in the event conditional upon the provision of medical documents and/or evidence to be specified in more detail, or the use of certain technologies (in particular smartphone apps). Such documents and/or evidence should be suitable for reducing the risk of participants unwittingly spreading the coronavirus or a comparable virus during or in connection with their participation in the event. Such documents, to be provided at the participants' expense, may include, for example: proof of a negative coronavirus test or of sufficient immunity through vaccination and/or having recovered from a coronavirus infection. The use of a specific technology (smartphone app) may be required in order to trace any chains of infection and to enable direct communication with participants.

§ 10 Liability, Force Majeure

10.1 Unlimited liability

We are liable for wilful misconduct and gross negligence. In cases of slight negligence, we are liable for damage resulting from injury to life, limb or health.

10.2 Limitation of liability

In other respects, we shall be liable for slight negligence only in the event of a breach of an essential contractual obligation, the fulfilment of which is essential for the proper performance of the contract and on the observance of which participants may reasonably rely (cardinal obligation). Liability for slight negligence is limited in amount to the damage foreseeable at the time the contract was concluded, the occurrence of which must typically be expected. This limitation of liability also applies in favour of the vicarious agents of SCC EVENTS GmbH.

10.3 Cancellation, Termination, Force Majeure

If, in cases of force majeure, or due to an official order for which it is not responsible, or for safety reasons, SCC EVENTS GmbH is entitled or obliged to make changes to the organisation of the event which render its economic viability impossible, or to cancel it in whole or in part, SCC EVENTS GmbH shall not be liable for damages to the participants. In such cases, SCC EVENTS GmbH may withdraw entry rights, exclude individual or all participants from SCC sporting events and/or withdraw from the contract. Should SCC EVENTS GmbH, in cases of force majeure or due to an official order for which it is not responsible, or for safety reasons, be entitled or obliged to reduce the number of participants, a draw shall be held to select participants up to the maximum number prescribed by the authorities. The participants affected will be informed immediately of any (partial) cancellation. If a sporting event has already begun and must be abandoned for the reasons mentioned above, participants shall have no entitlement to a refund of the entry fees paid.

Force majeure includes war, a state of war-like conditions, civil unrest, strikes, lawful lockouts, shortages of energy or raw materials, revolution, rebellion, military or civil coups, terrorism, nuclear reactor accidents, riots, embargoes, epidemics, pandemics such as COVID-19, fire, hurricanes or other severe weather events of a catastrophic nature, as well as natural disasters such as earthquakes and landslides.

10.4 State of health and increased risk at certain events

We accept no liability for any health consequences arising from participants taking part in a sporting event whilst not being in a fit enough condition to complete it, or whilst suffering from an acute illness or injury; from failing to complete the PAPS test or disregarding its results; and/or from failing to seek immediate medical assistance should they feel unwell and/or sustain an injury whilst taking part in a sporting event.

In the event that the competition route passes through the countryside, along paths that are not consistently paved, or through open water, we recommend that participants choose their footwear and clothing according to the weather conditions, about which they should inform themselves in advance. Participants are aware that wind and rain can affect their ability to orientate themselves in the water. They are aware that swimming in open water is, in principle, more dangerous than swimming in an indoor pool due to the influence of the weather and possible currents.

10.5 Indemnity

Participants who take part in the event despite knowing, or ought to have known, that they are or may be carriers of a contagious disease shall indemnify SCC EVENTS GmbH – upon first request – against all claims by third parties. This may be the case, for example, if an infection (such as with SARS-CoV-2) has been confirmed in a participant, or if participants have failed to fulfil their obligations to provide evidence in accordance with clause 8.2 of the Terms and Conditions of Participation and have submitted incorrect or incomplete evidence.

§ 11 Data collection and processing

11.1 Processing for the purposes of contract performance, publication and the results database

The personal data provided by participants upon registration (see § 5.1 of the Terms and Conditions of Participation) is stored by us and processed for the purposes of organising and running the sporting event, including the printing of race results on personalised certificates and/or the provision of medical

care to participants along the route and at the finish line by the medical services supervising the event, as well as for payment processing.

Data processing is carried out at the participants' request and is necessary, in accordance with Article 6(1)(b) of the GDPR, for the performance of the participant contract and for pre-contractual measures.

The personal data collected by us in the context of the performance of the contract will be stored by us until the expiry of the limitation period following the performance of the contract, provided that no statutory retention periods apply or the participants have not consented to storage beyond this period in accordance with the first sentence of Article 6(1)(a) of the GDPR.

11.2 Publication of results, results database

In addition, we process and publish the surname, first name, year of birth, nationality, gender, club (if applicable), race number and results (placings and times) of participants for the purpose of presenting participation and results lists in the relevant event-related media (printed materials such as programme booklets and results booklets, as well as on the internet) and pass them on for publication by third parties (e.g. newspapers, results services, etc.) and store them for the purpose of creating a results database – including historical records.

This data processing and disclosure is carried out on the basis of our legitimate interests pursuant to the first sentence of Article 6(1)(f) of the GDPR.

11.3 Audio and video documentation

The collection, processing and storage of personal data associated with the image and audio recordings carried out and/or arranged by us in accordance with Section 3.2 are based on our legitimate interests pursuant to the first sentence of Article 6(1)(f) of the GDPR.

11.4 Disclosure of data to training run partners

The personal data provided as part of the registration process (in particular the name, email address and, where applicable, any further details required to provide the partner's service) will be transferred by SCC to the partners expressly named in the registration process and processed by them for the purpose of providing the respective partner service.

The legal basis for this data transfer and the corresponding processing by the partners is by consent pursuant to the first sentence of Article 6(1)(a) of the GDPR. Consent may be withdrawn at any time by emailing SCC at datenschutz@scc-events.de and/or by contacting the partner at the email address provided during the registration process.

§ 12 Consent under data protection law relating solely to participation in the BERLIN MARATHON

(1) I agree that my data [surname, first name, nationality, date of birth, email address, gender, race number, overall and age-group results of the race] may be transferred to Abbott World Marathon Majors Ltd. (USA) for the purpose of possible participation in the Abbott World Marathon Majors (AWMM) rankings, the AWMM Age-Group Championship and the listing of AWMM Star Finishers on the website www.worldmarathonmajors.com, and that they may be processed, used and published there.

(2) I may withdraw my consent at any time with future effect by notifying SCC EVENTS GmbH in writing by fax or email to code@scc-events.com

§ 13 Consent under data protection law relating solely to participation in the BERLIN HALF MARATHON

(1) I agree that my data [surname, first name, race number, net finishing time] may be transferred to SuperHalbs s.r.o. (Czech Republic) for the purpose of possible participation in the SuperHalbs ranking, and may be processed, used and published there.

(2) I may withdraw my consent at any time with future effect by notifying SCC EVENTS GmbH in writing by fax or email to code@scc-events.com

§ 14 Special provisions for team events

14.1 Registration for team events

We also offer team events, such as the 5x5 km team relay or the Brandenburg team relay. For these events, team members are registered by a single person. This person is responsible for ensuring that the information requested about the participants is accurate and always up to date. Changes to registrations and/or late nominations of participants are possible via the channels communicated for the individual events within the specified timeframes.

14.2. Responsibilities of the person registering participants

For team events, the assigned registrant is our sole points of contact. They will receive all information and documentation from us. They are responsible for collecting the starter passes, race numbers and timing transponders and distributing them to the participants on their team. The registrants will inform the participants about the event programme and provide them with these Terms and Conditions of Participation. Before registration, the registrants shall specifically inform the participants that their names and team results will be published and that photographic and audio recordings will be made of them (clauses 10.2 and 10.3 of these Terms and Conditions). They shall also inform the participants about our free PAPS test (see clause 2.1 of these Terms and Conditions).

July 2026
